

Report

7.1.7 The Institution has disabled-friendly, barrier free environment.

1. Built environment with ramp / lifts for easy access to classrooms.

The Ramps are built through the campus where uneven floor levels present to provide safety and prevent knee jerk accidents. Ramps are helpful to push wheel chair, trolley over a kerb or step by negotiating just a few inches of height difference. Utility ramps solve the problem and make wheeled movement between uneven levels very easy, thereby helping the movement of disabled persons easier. The lift facility enables the movement of the person to different floors. Also the lift facility enables the movement of heavy weight objects to different floors. Photo.1, shows the ramp and lift facilities at the college campus.
