**Scope of SDP**

Networking is predicted to be the second fastest growing occupation, faster than the average for all occupations, and will continue to grow as investments are made in newer, faster technology, and mobile networks. This SDP curriculum is designed for faculty members seeking fulfilling prerequisites in pursuing more specialized information and communication technology skills, research & innovation in the networking area. This SDP provides comprehensive coverage of networking topics, from fundamentals to advanced applications and services, while providing opportunities for hands-on practical experience and networking skills development. Packet Tracer is an integral part of the SDP. Packet Tracer provides simulation, visualization, authoring, assessment, and collaboration capabilities and facilitates the teaching and learning of complex technology concepts.

**Resource Persons**

Professors from IITs, NITs and experts from industries will deliver their talks during the various sessions of the programme.
