Report on

“National Energy Conservation Day: Energy Conservation- A path towards Sustainability”

National Energy Conservation Day is observed to raise awareness about the significance of energy and the need of saving or conserving energy by using less energy. The most precise method of energy conservation is to utilize less energy by minimizing energy waste. To store energy for future use, it is critical to use it effectively. To have a greater impact on the energy conservation strategy, energy conservation should be ingrained in every human being's behavior.

9. Type of Event : **National Energy Conservation Day: Energy Conservation- A path towards Sustainability**
10. Resource Person: Dr. G Vinoth, MS, PHD(USA) & Mrs. B Preethi BE, MS(USA).
11. Date & Event Duration : **30th December, 2021 @ 11:45 AM to 1:00 P.M**
12. Venue : Google Meet
13. Organizer : Dr. P Ebby Darney, Professor & HOD Departement of Electrical & Electronics Engineering.
14. Faculty Coordinators: Mr. Avinash C M, Assistant Professor.
15. Target Participants: 3rd,5th and 7th semester students of Electrical & Electronics Engineering.
16. Topics covered:
 - Turn your refrigerator down.
 - Use energy-efficient light bulbs.
 - Clean or replace air filters as recommended.
 - Do full loads.
 - Use smart power strips.
 - Air-dry dishes and clothes.
 - Bake with glass or ceramic pans.
 - Cook using the right-sized burner.
