

## Department of Robotics and Automation

### Faculty Knowledge Enhancement

NAME OF THE DEPARTMENT: Department of Robotics and Automation

1. Type of Event : AICTE Training And Learning (ATAL) Academy Offline FDP on  
"AICTE-ATAL Idea Lab Basic Faculty Development Program  
(Hands-on Training)  
Visvesvaraya Technological University-CPGS  
Muddenhalli, Chickballapur (Dt)
2. Date of the programme : 7<sup>th</sup> - 11<sup>th</sup> August 2023
3. Faculty member participated: Dr.K.C.Vishwanath  
Associate Professor  
Department of Robotics and Automation  
RajaRajeswari College of Engineering  
Bengaluru 560074
4. Outcome of the Programme:
  - 3D printing and its programming using MakerBot software
  - IoT
  - PLC
  - Laser Cutting 3D Printing
  - CNC Woodcutter
  - Embedded System Design Software for PIC Micro Controller
  - PCB Design software

## Department of Robotics and Automation

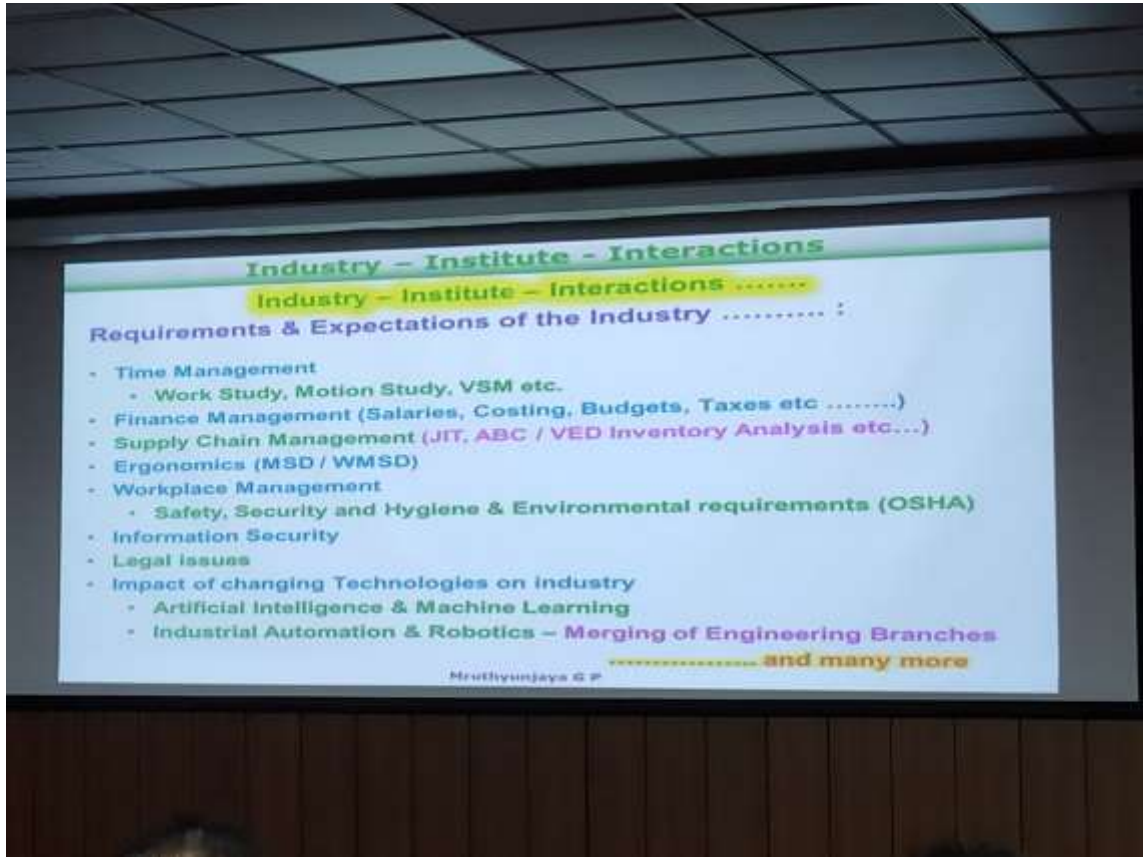

Inauguration of the FDP

Dr K C Vishwanath with the participants during the FDP

## Department of Robotics and Automation

During the FDP

MakerBot 3D Printing software

## Department of Robotics and Automation

AICTE IDEA IOT Lab

Laser Curing machine

Subject: Participation confirmation for the AICTE-ATAL IDEA Lab Basic Faculty Development Programme from 07th to 11th August 2023-reg.

To: <m.chintu.mamatha@gmail.com>, <drpiy1@gmail.com>, <tnpmech@bmsit.in>, Manjunath Chowdappa <mcmanju2003@gmail.com>, <nagarajdc@bmsit.in>, <shivakumarat@bmsit.in>, Dr. Vishwanath K C <vishwa8160@gmail.com>

Dear Participants,

I welcome your interest shown towards the AICTE-ATAL IDEA Lab Basic Faculty Development Programme from **07<sup>th</sup> to 11<sup>th</sup> August 2023**.

The Inauguration ceremony will start at **10:00 AM on 07<sup>th</sup> August 2023**. Hope you will have a good takeaway from this Training Programme.

We have already added the registered Participants to Whatsapp Group, if we have missed, kindly scan the QR Code and join the Group for regular updates of the Program and for easy communication with the organizers .

Coordinator  
AICTE-ATAL IDEA LAB  
Visvesvaraya Technological University  
Muddenahalli, Chickballapur-562101

### List of Software

#### List of Softwares for “IDEA LAB FDP”

1. Onshape : Design Cloud Based Software Onshape is the only Software-as-a-Service (SaaS) product development platform that combines CAD, built-in PDM, real-time collaboration tools, and business analytics Link: <https://www.onshape.com/en/> Imp. Instruction: Need to make a student account on the above link for designing purposes.
2. MakerBot Print: Printing Strategy Making Software Prepare, print, and monitor your project - from your browser straight to your MakerBot 3D Printer. MakerBot CloudPrint™ replaces MakerBot Print with an improved preparation experience and allows teams to collaborate and share access to MakerBot 3D printers. Download Link: <https://www.makerbot.com/3d-printers/apps/makerbot-print/download/> Imp. Instruction: Download it directly from the link mentioned above.
3. RD Works: Laser Cutting strategy making Software RDWorks is a powerful program that allows you to perform laser cutting engraving operations. The program has support for drawing points, lines (horizontal/vertical), polyline, ellipse/circle, rectangular/square, Bezier curve, text, and for CAD models such as DXF, AI and PLT. Download Link: <https://rdworks.software.informer.com/8.0/> Imp. Instruction: Download it directly from the link mentioned above. Install it with a machine plugged in with your Laptop.
4. ASPIRE: CNC Wood Router cutting strategy making Software Aspire free trial has been designed to allow you to test all the elements of the software to ensure it is the right product for you. The trial software is not time limited, nor does it require you to sign up with your personal details. All of the features are enabled and there are a selection of free projects available for you to download and cut on your CNC machine to check the compatibility. Download Link: <https://www.vectric.com/free-trial/aspire> Imp. Instruction: Directly download the student version after signup and install it on your laptop from the link mentioned above.
5. Autodesk Eagle: PCB Design Software Included with a Fusion 360 for personal use subscription, EAGLE free download is a limited version for hobbyists including 2 schematic sheets, 2 signal layers, and an 80cm<sup>2</sup> (12.4in<sup>2</sup>) board area. Download Link: <https://www.autodesk.com/products/eagle/free-download> Imp. Instruction: Login to the link mentioned above to download the software for the student version.
6. MPLAB® X IDE: Embedded System Design Software for PIC Microcontroller MPLAB® X Integrated Development Environment (IDE) is an expandable, highly configurable software program that incorporates powerful tools to help you discover, configure, develop, debug and qualify embedded

## Department of Robotics and Automation

designs for most of our microcontrollers and digital signal controllers. Imp. Instruction: <https://www.microchip.com/en-us/tools-resources/develop/mplab-x-ide> Login: Download directly from the above mentioned Link and install it directly on your Laptop. While installing it, click all the checkboxes present for all the tools.

7. MPLAB® XC Compilers: Embedded System Programming Compiler for PIC Microcontroller Now Microchip offers a TÜV SÜD certified functional safety compiler package that supports all our PIC, dsPIC, AVR and SAM devices to make your tool qualification effort easier. The package includes all the documentation and reports for a fully qualified development environment for functional safety standards ISO26262, IEC 61508, IEC 62304 and IEC60730. Functional safety licenses also include all of the optimizations found in our PRO compiler licenses and are available in the downloads tab below. Note that these compilers only unlock when a functional safety license is purchased Link: <https://www.microchip.com/en-us/tools-resources/develop/mplab-xc-compilers#tabs> Imp. Instruction: Download it from above mentioned link after clicking on compiler download tab. While installing the software , you need to click the checkbox for “Add to Path”.

\*\*\* In case of Any doubt , youtube videos can be used for the reference.\*\*\*
