1	BESCK104C	Introduction to Electronics Communication
3	BEC303	Electronic Principles and Circuits
3	BEC303L	Electronic Principles and Circuits Lab

CO-PO Mapping-View

Subject Details

Pattern: L T P

PO1: Engineering Knowledge: Acquire knowledge on fundamentals of Electronics & Communication Engineering, Sciences, Mathematics and Computational aspects.

PO2: Problem Analysis: Identify formulate and solve complex Electronics & Communication Engineering problems by choosing and applying appropriate analysis and modeling methods.

PO3: Design/Development of solutions: Design and conduct hardware, software, simulation component or process to meet desired needs with realistic constraints including health, safety, cultural, societal and environmental considerations.

PO4: Conduct Investigations of Complex problems: Carry out research, experiments, team projects and publish the outcomes in various symposia, conferences and journals.
