INTRODUCTION ABOUT THE INTERNSHIP

rexroth

A Bosch Company

About the VTU Visvesvaraya Technological University (VTU) named after Bharat Ratna Dr. Sir M. Visvesvaraya established on 1st April 1998, as per the VTU Act 1994 of the Government of Karnataka. University has been established by the Government of Karnataka in order to promote planned and sustainable development of technical education has its Head Office located at Belagavi in the State of Karnataka.

Reckoning the fact that, University, is a seat of confluence of knowledge and as a Technological University, Visvesvaraya Technological University, does not restrict itself only to curricular activities but emphasizes on the overall growth of knowledge in society and hence its campus in Belagavi is named aptly as "Jnana Sangama".

The University has jurisdiction over the whole state of Karnataka. VTU has established four regional centers at Bengaluru, Mysuru, Kalburgi and Belagavi for administrative convenience.

VTU is one of the prestigious and largest Technological Universities in India having affiliation of 150 Engineering Colleges and 25 Autonomous Colleges and one Constituent College. VTU is imparting Technical Education to more than lakh students under its 35 Undergraduate & 94 Postgraduate Programs. VTU is offering Doctoral Programs in 865 Departments in various affiliated Colleges which have been recognized as research centers.

Around 5000 Research Scholars are perusing for Doctoral and M.Sc. (Engineering) by Research Programs. VTU has established full-pledged Centers for Post Graduate Studies at Muddenahalli, Kalburgi, Belagavi and Mysuru.

CERTIFICATE OF INTERNSHIP

This is to certify that **Mr. Devaraju**, bearing USN 1RR21RA005 from the R & A Engineering Department from **Raja Rajeshwari College of Engineering**, has successfully completed the off-campus internship program in **"3D PRINTING"** Learning at **ANU CREATIONS**, Bengaluru from 1st Nov 2023 to 22nd Nov 2023.

The intern has shown great enthusiasm and interest in the learning, effectively participated in all the phases of the project and displayed satisfactory conduct.

We wish him the best for his all future endeavors.

Information collected during the visit at

M/s Bharath Arts and Crafts, Channapatna, Ramnagara (Dt) by Ms.Bhumika (1RR21RA003)

- As we all know channapattana is famous for manufacturing toys that are made up of wood.
- We first visited the toys store in channapattana and learn about the various handmade manufacturing procedures for making wooden toys and purchased a few toys.
- All toys were very catchy and felt like buying everything in the store.
- When we discussed with the working staff there in the toy store, they gave the information about the various types of wood and the making procedure of wooden toys.
- All the toys were made in different kinds of woods like neem, aleemara and rosewood and many more.
- Another wood , they import it from 50 km away from channapattana which is a very unique tree.
- The toys or products manufactured were not only playing kits for children but also key chains, home décor items, kitchen set items, bangles, showcase dolls, and also education-related toys or playing boards were also there.
- The colors that they apply to the toys are natural colors from turmeric and many more.
- Then, we visited channapattana arts and handicrafts industry.
- In industry, they bring the raw materials different types of wood and start to manufacture different types of shapes for desired products.
- There the machine used to give finishing to the product or surface finishing was by using salt paper and keeping the workpiece to be smoothed in the belt driven mechanism.
- The belt keeps rotating at a speed (rpm) where the workpiece is kept to rotate, the worker starts to give surface finishing to the object by rubbing it to it's surface using salt paper.
- And giving color to the object is of the same procedure, for that process they use natural colors like an ancient leaf called taalegari which gives green color.
- And finally giving it a finishing touch the process completes and the product is ready to sell.
- There we saw a CNC machine giving a design for a butterfly product.
- There we asked the operator how this works.
- The person explained that the remote showing x-axis is the axial line moving in x or horizontal direction, y in vertical direction and z-axis is for how much depth it goes inside the wood.
- They use the software called Corel Draw and design the product and copy it to a pen drive and plug it to the remote and then the operation is carried out.

Dear Sir

Sub: Requisition for an industrial visit – Reg.

Good Morning. With reference to your mail dated 15th December 2022. We express our sincere thanks and we would like to visit your esteemed organization of M/s Bharath Arts and craft on Friday 23rd December 2022 from 10.30 am to 1 pm. Also, we will pay an amount of Rs.100/- per student and staff members

Nearly 50 Second-year B.E. students from the branch of Mechanical, Robotics and Automation, Electrical Engineering, and Civil Engineering along with 5 of our faculty members accompanying the students.

We request you to kindly consider our request and grant permission to visit your place on Friday 23rd December 2022 from 10.30 am to 1 pm. We request you to confirm the same, it will be helpful for us to plan the visit.

Expecting your reply soon

With regard

Dear Suhel,

Greetings. We expressed our sincere appreciation for granting permission to our request. Students gain more knowledge about the processes adopted to produce the world-famous Chennapatna toys. Your workers are very cordial and briefed the students about the process of making the toys.

It's very a wonderful visit.

On behalf of all we expressed our thanks to you and your workers

Report on Alumni Talk

Date: 19.07.2024

Event Name : A Talk on “Career Orientation”
 Venue : Visveswaraya Seminal Hall
 Date & Time : 19/07/2024 & 10.00 AM to 11.00 AM
 Alumnus : Mr Harsha G
 Batch : 2011 to 2015
 Designation : Assistant Geotechnical Engineer, Atkins Realis, Bengaluru.
 Participants : Sixth semester students of Civil Engineering Department.

Summary of the event:

The event started with welcoming the alumnus for the event by Alumni head Dr. Savitha B. and Prof. Malarvizhi MC. Sixth semester students of Civil Engineering are participated. Around 10 students from Civil Engineering participated in the event. The session includes Placement Guidance – Active involvement with the alumni provides guidance to the current students in their professional lives. After the interaction with the students, the resource person was honored with Memento as a token of appreciation to conclude the event.

Software training program on "Application of building information modelling software – Civil Industry"

Event Name : Application of building information modelling software – Civil Industry.

Venue : Visvesvaraya Seminar Hall, RRCE.

Date & Time : 24th June 2024 & Timings : 12.00 P.M. to 01.00 P.M.

Guest visited : Mr.Balu Krishnamoorthy

Batch : III Year students

Organization : Multi axis innovations pvt. Ltd., Bengaluru

Designation : CEO

Summary of the event:

The event started with the welcoming the guests Mr.Balu Krishnamoorthy, Multi axis innovations pvt. Ltd., Bengaluru by Dr.K.Aravinthan, Associate Professor and HoD – Civil, Dr.R.Balakrishna, Principal, Dr.J.Amutharaj, HOD & Vice Principal, III year Civil, have participated in this seminar.

Chief guests interacted with 3rd year Civil students regarding modelling software and its application in building information system.

Students have given the feedback to organize such events to get more exposure to present soft-skill requirements. After the interaction with the students, the resource person was honoured with the vote of thanks. Mrs M.C.M.Malavizhi, Mr.Kamalakara, Mrs. M.P.M. Kavya Asst. Professors of Civil Department have coordinated the interaction.

Department of Electrical & Electronics Engineering

Information collected during the visit at M/s Bharath Arts and Crafts, Channapatna, Ramnagara (Dt) by students

- As we all know channapattana is famous for manufacturing toys that are made up of wood.
- We first visited the toys store in channapattana and learn about the various handmade manufacturing procedures for making wooden toys and purchased a few toys.
- All toys were very catchy and felt like buying everything in the store.
- When we discussed with the working staff there in the toy store, they gave the information about the various types of wood and the making procedure of wooden toys.
- All the toys were made in different kinds of woods like neem, aleemara and rosewood and many more.
- Another wood, they import it from 50 km away from channapattana which is a very unique tree.
- The toys or products manufactured were not only playing kits for children but also key chains, home décor items, kitchen set items, bangles, showcase dolls, and also education-related toys or playing boards were also there.
- The colors that they apply to the toys are natural colors from turmeric and many more.
- Then, we visited channapattana arts and handicrafts industry.
- In industry, they bring the raw materials different types of wood and start to manufacture different types of shapes for desired products.
- There the machine used to give finishing to the product or surface finishing was by using salt paper and keeping the workpiece to be smoothed in the belt driven mechanism.
- The belt keeps rotating at a speed (rpm) where the workpiece is kept to rotate, the worker starts to give surface finishing to the object by rubbing it to its surface using salt paper.
- And giving color to the object is of the same procedure, for that process they use natural colors like an ancient leaf called taalegari which gives green color.
- And finally giving it a finishing touch the process completes and the product is ready to sell.
- There we saw a CNC machine giving a design for a butterfly product.
- There we asked the operator how this works.
- The person explained that the remote showing x-axis is the axial line moving in x or horizontal direction, y in vertical direction and z-axis is for how much depth it goes inside the wood.
- They use the software called Corel Draw and design the product and copy it to a pen drive and plug it to the remote and then the operation is carried out.

Dear Madam,

Thank you for reaching out. We appreciate your interest in an industrial visit to our factory. We acknowledge your request for Wednesday, 13th December 2023, from 10.30 am to 1 pm. We confirmed it the same. Your commitment to providing valuable experiences to students aligns with our mission, and we look forward to the possibility of hosting your group. 100/ student we will charge towards tour fee.

Best regards,
Suhel

Sir / Madam,

Sub: Permission to visit U R Rao Satellite Centre – Reg.

We are in receipt of your email letter dated Aug 30, 2023 requesting permission to visit URSC. Accordingly, you are permitted to visit on the **following date and time.**

06-12-2023	11:00 AM to 12:00 PM
-------------------	-----------------------------

Please provide details of your team members and faculty members along with an authorization letter from Head of the department restricted to **65** members per batch only, subject to the following conditions

Your team may report to URSC Reception Counter of Centre 15 minutes in advance in order to complete the administrative formalities for issuing entry passes.

1. You are requested to strictly adhere to the time schedule mentioned above.
2. In case of any exigencies, we may cancel the above visit without any intimation.
3. Carrying Camera and taking photography inside this Centre is strictly prohibited.
4. Mobile phones and electronic gadgets are not allowed to be taken inside.
5. The visitors should declare items to be carried if any and seek permission, while entering this Center to the security personnel for checking.
6. No foreign nationals are allowed.
7. No Family members will be allowed inside this centre.
8. After the visit Acknowledgement letter will not be issued from the Organization.
9. Please note, all Students/Faculty shall strictly follow Covid Appropriate Behavior inside URSC Premises, including Wearing of Face Mask. Entry is not permitted without mask.

Please note that our office is located on Old HAL Airport Road, Bangalore-560 017 next to National Aerospace Laboratories (NAL). You can contact our Reception on 080-25084469 & 25084470.

The professor accompanying the Students may kindly contact the Reception Counter of this Centre to complete the administrative formalities and for issue of Entry pass in time. Kindly acknowledge the receipt of this letter.

Yours faithfully

(Malathy. S)

Report on Industrial Visit to ISRO

We are thankful to Group Director, Programme, Planning & Evaluation Group and U R RAO Satellite Centre for giving opportunity to our students for visiting their esteemed campus. We extend our gratitude to Management, Principal of RRCE for supporting us in conducting such learning activities.

Details of Members Visited:

Date Of Visit	Semester	No. Of Students	No. of Faculty Members	Timing
06-12-2023	3	58	3	Entry: 11.00 A.M. Exit : 12.00 Noon
Total no. of visitors = 58 + 3 = 61				

On 6th December, 2023, Wednesday, MCA 3rd Semester students along with the faculty members left the College campus by bus at 09:30 am. It reached ISAC campus on Old Airport Road at around 11:30 am. After finishing reception formalities, everyone was given a pass and entered the ISAC exhibition hall.

Students got the Exposure on:

- Satellite Assembly in the clean room
- Different kind of Satellites
- Antennas
- Launch Vehicle Models
- Various Subsystems of Rockets and Spacecraft
- Museum
- Video on Chandrayaan Launch
- History of Indian Space Programme

Department of Master of Computer Applications

In the visit, students had a visual exposure about different kinds of satellites and various parts. During the visit the UR Rao Satellite Centre Faculty has given the demonstration about Satellite subsystems, Antennas, Launch Vehicles, On board systems, Propellant Tanks and Satellite Assembly in clean room. The students were expressed that this program was highly useful to them to understand the journey of Indian Space Programme and as well as to gain the knowledge on Satellite sub-systems. The visit finished by 01.30pm after taking the opinion and feedback from students.

- After returning the passes, we boarded the bus at 1:30 pm. The bus reached campus at around 4:00 pm. No photographs were taken as photography was strictly not allowed inside UR Rao Satellite Centre.

Report on visit to IMTMA and IMS 2023

NAME OF THE DEPARTMENT: Department of Robotics and Automation

1. Type of Event : Skill enhancement - Industrial visit Indian Machine Tool Manufacturers' Association (IMTMA) and India Manufacturing Show (IMS) 2023

2. Date of the programme : Friday, 3rd November 2023

3. Faculty Co Ordinator : Dr.M.Karthikeyan,
Professor and Head
Department of Robotics and Automation
RajaRajeswari College of Engineering

Dr. C.Ramesh
Professor and Head
Department of Mechanical Engineering
RajaRajeswari College of Engineering

Prof.Radhakrishna R.K.
Assistant Professor
Department of Mechanical Engineering
RajaRajeswari College of Engineering

4. Students attended: 1st Semester of Robotics and Automation

5. Outcome of the programme:

Students gained information about the following:

1. Understand how the technology, and production activity works and also acquire knowledge and experience.
2. Need for robots, ways it helps the industry
3. Future scope for robotics and applications of the robots such as pick-and-place, palletizing, sorting etc.
4. CNC Machines (vertical and horizontal machines).
5. Many companies had presented their ideas.
6. Projects based on robotics and various companies such as UCAM ,Powertech Pollution Control, Aisiri, Smart tool dispenser, Madox Technologies, Alstrut India, Ati and many more companies explained their components.

Report of Industry Visit

Report of visit to M/s Bharath Arts and Crafts, Channapatna, Ramanagara (Dt) on Monday, 5th February 2024 with respect to the subject 21SCR36 SOCIAL CONNECT & RESPONSIBILITY of 3rd-semester students of Robotics and Automation

Students gained information about Channapatna toys production, dyes to color the toys, eco-conscious etc.

The following faculty members are arranged, coordinating, and accompanying the students

1. Dr. Sathesha V , Associate Professor -R&A
2. Dr. ThanujKumar M , Assistant Professor -R&A
3. Dr. Radhakrishna R K, Assistant Professor -R&A
4. Dr. M. Karthikeyan, Professor and HOD-R&A

Department of Robotics and Automation

Information collected during the visit at

M/s Bharath Arts and Crafts, Channapatna, Ramnagara (Dt)

- As we all know channapattana is famous for manufacturing toys that are made up of wood.
- We first visited the toys store in channapattana and learn about the various handmade manufacturing procedures for making wooden toys and purchased a few toys.
- All toys were very catchy and felt like buying everything in the store.
- When we discussed with the working staff there in the toy store, they gave the information about the various types of wood and the making procedure of wooden toys.
- All the toys were made in different kinds of woods like neem, aleemara and rosewood and many more.
- Another wood , they import it from 50 km away from channapattana which is a very unique tree.
- The toys or products manufactured were not only playing kits for children but also key chains, home décor items, kitchen set items, bangles, showcase dolls, and also education-related toys or playing boards were also there.
- The colors that they apply to the toys are natural colors from turmeric and many more.
- Then, we visited channapattana arts and handicrafts industry.
- In industry, they bring the raw materials different types of wood and start to manufacture different types of shapes for desired products.
- There the machine used to give finishing to the product or surface finishing was by using salt paper and keeping the work piece to be smoothed in the belt driven mechanism.
- The belt keeps rotating at a speed (rpm) where the work piece is kept to rotate, the worker starts to give surface finishing to the object by rubbing it to it's surface using salt paper.
- And giving color to the object is of the same procedure, for that process they use natural colors like an ancient leaf called taalegari which gives green color.
- And finally giving it a finishing touch the process completes and the product is ready to sell.
- There we saw a CNC machine giving a design for a butterfly product.
- There we asked the operator how this works.
- The person explained that the remote showing x-axis is the axial line moving in x or horizontal direction, y in vertical direction and z-axis is for how much depth it goes inside the wood.
- They use the software called Corel Draw and design the product and copy it to a pen drive and plug it to the remote and then the operation is carried out.

Dated, 22nd December, 2023.

To

Dr. Jobish Johns,
Associate professor,
Raja Rajeswari College of Engineering, Bangalore.

Sir,

Sub:- Payyanur College, Payyanur-Permission to carry out M.Sc. Project work-Reg.

I request you to kindly allow four of our IV Semester M.Sc. Physics students (details given below) to carry out their project work in your organization during February-March 2024 time slot as part of their curriculum.

Please allow our students to utilize your institution facilities in order to gain knowledge and exposure and also for the completion of the project work. We will take care of our student's accommodation and food expenditure during the project period and we will ensure that the students will follow all the rules of your prestigious institution.

Respected Sir,

This is to inform you that, four Post Graduate students from **Payyanur College, Kannur, Kerala** are coming to the department for doing their research project as a part of their curriculum. In this regard, I request you to permit them to carry out R&D experiments in the R&D center, Department of Physics, RRCE for a period of four weeks (03-02-2024 to 02-03-2024).

Yours Sincerely

[Dr. JOBISH JOHNS]

RajaRajeswari College of Engineering

(Approved by AICTE, New Delhi, Govt. of Karnataka & Affiliated to Visvesvaraya Technological University, Belgaum)

Sponsored by: MOOGAMBIGAI CHARITABLE AND EDUCATIONAL TRUST

Ref. No. RRCE/PHY/R&D/03/2023-24

18th June 2024

CERTIFICATE

This is to certify that the project entitled 'PREPARATION OF NiO NANOPARTICLES AND IT'S INCORPORATION INTO NR VULCANIZATES' submitted by Ms. ABHIRAMI P submitted to Kannur University for the partial fulfillment of the requirements for the award of Degree of Master of Science in Physics is the result of project work carried by her under my supervision.

I wish her all the best for future Endeavour's

Dr. Jobish Johns, M.Sc., Ph.D.
