Report

Event Name : Value added course/Skill training on “Basics of Robotics”
Date : 16th to 20th January 2024
Venue & Time : EEE Lab 3:00pm to 5:00pm
Trainer : Dr.R.Arul Jose
 Associate Professor
 Department of EEE
 RajaRajeswari College of Engineering.

Day 1: Introduction to Robotics-Arduino Programming-Simulation using Tinkercad

The workshop commenced with encouraging speech by Dr.P.Ebby Darney, HoD of EEE Department. The course started an engaging introduction to the fascinating world of robotics and Arduino programming by the Trainer. Participants gained insights into the principles of robotics and the basics of programming using the versatile Arduino platform. The day concluded with hands-on simulation exercises using Tinkercad, allowing attendees to visualize and experiment with their newly acquired knowledge.

Day 2: Installation of Arduino Ide-Realtime Implementation of Arduino-Buzzer- Ultrasonic Sensor-IR Sensor-PIR Sensor

Participants delved into practical aspects on Day 2, starting with the installation of Arduino IDE. Real-time implementation of Arduino involved working with essential components such as buzzers, ultrasonic sensors, IR

sensors, and PIR sensors. This session provided a solid foundation for participants to understand the functioning of these components and their integration with Arduino.

Day 3: Bluetooth Module HC-05- Motor Driver L298N- Developing Bluetooth Controlled Robot using Arduino UNO

Day 3 focused on advanced topics, introducing Bluetooth technology with the HC-05 module and Motor Driver L298N. Participants actively engaged in developing a Bluetooth-controlled robot using Arduino UNO. This hands-on session enhanced their skills in wireless communication and motor control, marking a significant step towards practical applications in robotics.

Day 4: Developing Line Follower Robot using Arduino UNO

The fourth day centered around the development of a line follower robot, showcasing the integration of sensors and programming logic. Participants learned how to implement algorithms that enable a robot to follow a predefined path. This session emphasized the importance of precision in programming and sensor calibration for successful robotics projects.

Day 5: Robo Race-Introduction to Various Robots-Valedictory Function

The concluding day featured a thrilling Robo Race, where participants demonstrated the practical application of their acquired skills in a competitive environment. The workshop concluded with an introduction to various types of robots, providing a comprehensive overview of the diverse applications in the field of robotics. The valedictory function was headed by Dr.J. Amutharaj, Vice Principal and Dr.P.Ebby Darney, HoD-EEE department. The valedictory ceremony celebrated the achievements of the participants and acknowledged their dedication throughout the workshop.

The 5 day workshop on Basics of Robotics at Rajarajeswari College of Engineering provided participants with a holistic understanding of robotics principles and hands-on experience in Arduino programming. The combination of theoretical sessions, practical implementations, and a competitive Robo Race ensured that participants left with a well-rounded skill set. The workshop not only enriched the knowledge of the participants but also fostered a sense of enthusiasm and curiosity for the dynamic field of robotics. The success of this workshop is a testament to the commitment of the EEE department at Rajarajeswari College of Engineering in providing quality hands-on training opportunities to its students.

NAME OF THE DEPARTMENT: Department of Robotics and Automation

1. Type of Event : THREE DAYS STAFF DEVELOPMENT PROGRAM ON "INTRODUCTION TO PYTHON PROGRAMMING & ITS APPLICATIONS"
2. Resource Persons : Mr. Srikanth Jere, Associate Principal,
Data Scientist Accenture India Pvt Ltd., Bengaluru.
Dr. J Satheesh
Professor Department of Mechanical Engineering SJBIT,
Bengaluru.
Dr. Kiran Kumar R Associate Professor
Department of CIVIL Engineering SJBIT, Bengaluru.
4. Date of the programme : 4th to 6th September 2023
5. Faculty attended : Dr.M.Karthikeyan,
Professor and Head
Department of Robotics and Automation
RajaRajeswari College of Engineering
Bengaluru 560074

6. Outcome of the programme:

Faculty gained information about the following:

1. Introduction to Python: Provide a solid understanding of Python's syntax, data structures, and basic concepts.
2. Programming Fundamentals: Cover essential programming concepts such as variables, data types, operators, and control structures.

3. Functions and Modules: Teach participants how to create functions for code modularity and how to organize code using modules.
4. File Handling: Introduce file input/output operations, enabling participants to manipulate data stored in files.
5. Object-Oriented Programming: Explain the principles of object-oriented programming and guide participants in creating and using classes and objects.
6. Exception Handling: Familiarize participants with error handling techniques to make their programs more robust.
7. Python Libraries: Introduce commonly used Python libraries like NumPy and Pandas for data manipulation and analysis.
8. Web Development Basics: Provide an overview of web development using frameworks like Flask, highlighting the potential building web applications.
9. Introduction to Data Science: Touch upon the basics of data science, including data visualization and introductory machine learning concepts.
10. Real-world Projects: Engage participants in hands-on projects, allowing them to apply their knowledge to real-world scenarios.

About SJBIT

SJB Institute of Technology was started under the stewardship of Sri Adichunchanagiri Shikshana Trust® in the year 2001 and is located amidst peace and tranquillity, spread across 13 acres. SJBIT, being an autonomous institution under VTU, offers 8 UG programs and 4 PG programs which includes MBA and MCA as well. All the programs are approved by AICTE, New Delhi & Accredited by NBA & NAAC with 'A+' Grade.

SJBIT is committed to personal, social & intellectual growth emphasizing a comprehensive educational programme leading to high academic standards.

Institution Vision

To become a recognized technical education center with global perspective.

Institution Mission

To provide learning opportunities that fosters students' ethical values, intelligent development in science & technology and social responsibility so that they become sensible and contributing members of the society.

ABOUT DEPARTMENT

The Mechanical Engineering program was started in the academic year 2009-2010 with well-equipped, spacious laboratories, classrooms and state of art facilities backed by experienced teaching faculties. So far department has secured 8 ranks both in UG and PG. Department encourages students to involve in R&D activities and inculcate innovative thinking by doing inventive projects. So far many innovative projects have been carried by the students and have applied for patents.

Department Vision

To become a center of excellence and a platform in diversified fields for the aspirants in Mechanical Engineering.

Department Mission

M1: To impart comprehensive education in the field of Mechanical Engineering to produce highly accomplished graduates

M2: To endow technical & soft skill trainings to foster professionalism and ethical values among students

M3: To induce innovative thinking among students through projects and research work

ABOUT SDP

About this Program

In an constantly developing technological landscape, proficiency in programming languages is becoming increasingly essential. Python, a versatile and user-friendly programming language, has gained significant popularity across industries. To empower our staff with valuable skills, we propose a comprehensive Staff Development Program focused on Python Programming. This program aims to equip participants with the fundamental knowledge and practical expertise needed to leverage Python for various tasks, from automation to data analysis.

Program Objectives

- Introduction to Python: Provide a solid understanding of Python's syntax, data structures, and basic concepts.
- Programming Fundamentals: Cover essential programming concepts such as variables, data types, operators, and control structures.
- Functions and Modules: Teach participants how to create functions for code modularity and how to organize code using modules.
- File Handling: Introduce file input/output operations, enabling participants to manipulate data stored in files.
- Object-Oriented Programming: Explain the principles of object-oriented programming and guide participants in creating and using classes and objects.
- Exception Handling: Familiarize participants with error handling techniques to make their programs more robust.
- Python Libraries: Introduce commonly used Python libraries like NumPy and Pandas for data manipulation and analysis.
- Web Development Basics: Provide an overview of web development using frameworks like Flask, highlighting the potential for building web applications.
- Introduction to Data Science: Touch upon the basics of data science, including data visualization and introductory machine learning concepts.
- Real-world Projects: Engage participants in hands-on projects, allowing them to apply their knowledge to real-world scenarios.

Report on visit to IMTMA and IMS 2023

NAME OF THE DEPARTMENT: Department of Robotics and Automation

1. Type of Event : Skill enhancement - Industrial visit Indian Machine Tool Manufacturers' Association (IMTMA) and India Manufacturing Show (IMS) 2023

2. Date of the programme : Friday, 3rd November 2023

3. Faculty Co Ordinator : Dr.M.Karthikeyan,
Professor and Head

4. Students attended: 1st Semester of Robotics and Automation

5. Outcome of the programme:

Students gained information about the following:

1. Understand how the technology, and production activity works and also acquire knowledge and experience.
2. Need for robots, ways it helps the industry
3. Future scope for robotics and applications of the robots such as pick-and-place, palletizing, sorting etc.
4. CNC Machines (vertical and horizontal machines).
5. Many companies had presented their ideas.
6. Projects based on robotics and various companies such as UCAM, Powertech Pollution Control, Aisiri, Smart tool dispenser, Madox Technologies, Alstrut India, Ati and many more companies explained their components.

8. Outcome of the programme:

Students gained information about the following:

Key LabVIEW Modules

1. Base Package

- **Graphical Programming:** Uses block diagrams and flowcharts.
- **Data Acquisition (DAQ):** Interfaces with hardware to collect data.

2. LabVIEW Real-Time Module

- **Real-Time Systems:** Develops deterministic and reliable applications for real-time hardware.

3. LabVIEW FPGA Module

- **FPGA Programming:** Allows programming of Field-Programmable Gate Arrays for high-speed control and processing.

4. LabVIEW Vision Development Module

- **Image Processing:** Provides tools for image acquisition, processing, and analysis.

5. LabVIEW Control Design and Simulation Module

- **System Modeling:** Enables modeling, simulation, and control of dynamic systems.

6. LabVIEW DSC (Datalogging and Supervisory Control) Module

- **SCADA Systems:** Supports large-scale monitoring and control applications.

7. LabVIEW Robotics Module

- **Robotics Applications:** Provides tools for designing and deploying robotic systems.

8. LabVIEW Sound and Vibration Toolkit

- **Signal Processing:** Analyzes sound and vibration data for various applications.

Observation report of the students

Mr. Rohith A T(1RR21CS129) and Mr. Bharadwaj M (1RR21CS023)

- Learn various data types and OOP concepts in Java
- Use of String functions like spilt(), char At(), to Upper() and other functions
- Making use of ASCII codes as an alternative to String functions
- Use of various data structures like Hash Map, Collections
- Making use of Serializations and Deserializations to understand byte code
- Learning to implement web development by using Tom Cat server
- Using Frames for Application development
- Learning of basics of SQL and how to write a query for a database
- Making use of OOP to solve real world problems

Conclusion:

Students Development program can help the students understand to learn various data types and OOP concepts in Java.

It can also provide students with practical knowledge to implement programming constructs..

This can help students to make use of Serializations and Deserializations to understand byte code.

The best thing you can do for yourself is to take it easy-Graduation is just another stepping stone in life. By graduating you have accomplished a lot more than many others managed to achieve by the time they were your age.

Take your time and explore your options- there is an endless plenty of possibilities in front of you when it comes to career development.

Report on Capgemini Women Transformation Program Advanced C# .NET Programming (Part 2 –Database Management)

NAME OF THE DEPARTMENT: Department of Computer Science and Engineering

18

1. Type of Event : Capgemini Women Transformation Program
Advanced C# .NET Programming (Part 2 –Database Management)
2. Resource Person : Mohamed Abdul Kader A
Technical Product Manager, Tiger Holidays
3. Date of the Programme: 29.08.2023 to 16.09.2023
4. Faculty Co-Ordinator: Dr.D.Kirubha
Associate Professor
Department of Computer Science and Engineering
RajaRajeswari College of Engineering
Bengaluru 560074

Dr.M.Selvi
Associate Professor
Department of Computer Science and Engineering
RajaRajeswari College of Engineering
Bengaluru 560074
6. Students attended: 7th Semester of CSE Girl Students (61)
7. Outcome of the Programme:

Students gained information about the following:

- MS SQL Server
- Web Applications using .NET
- ASP .NET and Web Programming
- Agile Fundamentals
- Understanding Multitier Architecture
- MVC Life Cycle
- Dependency Injection and Creating Services
- Implementing CRUD Operations
- Action and Action Results
- Data Passing Techniques
- Building Logics
- Mapping Data
- Working with Razor and Bootstrap
- Understating WebAPI
- Implementing Filters
- DotNet and IIS
- REST Services

Summary

An enthusiastic and highly motivated individual with nearly 11 years of experience in the design and development of enterprise grade products. Pioneered the development of many next-generation applications for various clients ranging from leading FMCG, Retail, Banking, and E-Commerce.

A rapid learner who can able to learn and comfortable to adopt new technologies quickly. Extensively worked on Android, IOS, Java and C# .Net platforms.

I have extensive experience in developing enterprise production level Mobile Applications(Android, iOS, Xamarin, Flutter), Web development, Java application development and maintenance and UI/UX development. I was improving myself continuously in solving complex algorithms and data structures. I guide the development team in delivering high-quality software and analytic solution in a cost-effective and efficient manner.

Expertise in handling Strong Customer Authentication(SCA), Security, Scaling, Code management and Code obfuscation.

Done R&D in Artificial Intelligence and Blockchain.

Exposure to Cloud computing services and Build tools.

Experience in designing intuitive UI and UX using design tools like Adobe XD and Figma.

I am improving myself continuously in solving complex algorithms and data structures. I guide the development team in delivering high-quality software and solution in a cost effective and efficient manner.

Proficient in programming languages like Java, Kotlin, Swift, C, C++, PHP and data interchange formats like XML and JSON.

Good sense in customising complex UI using various layouts and also specialised in enabling features like maps, Web services and media libraries.

Successfully completed R&D on accessing mobile applications in the Smartphone using voice commands for ford SYNC® AppLink™.

Extensively worked on peripherals like Printers, Camera, GPS, Bluetooth, NFC and Beacons etc.

Solid understanding and practice in TOGAF architecture (not certified).

Ability to understand business requirements and translate them into technical requirements

Having good analytical, debugging and problem solving skills.

Successfully crafted and delivered many high quality small, medium and enterprise level mobile applications from scratch to Live.

I have trained more the 400+ professionals of various experiences across the country.

I have trained more the 600+ students from various colleges across the country.

Open to challenges and opportunities.

Experience

Technical Product Manager

Tiger Holidays

Apr 2022 - Present (1 year)

As a Technical Product Manager at Tiger Holidays, my main responsibilities would be to oversee the development and management of the company's technology products. This would include working closely with cross-functional teams to gather requirements, develop product roadmaps, and define product features. I would also be responsible for ensuring that the products are delivered on time, within budget, and meet quality standards.

In addition to these core responsibilities, I would also conduct market research, analyze user feedback, and monitor industry trends to ensure that our products remain competitive and relevant. I would collaborate with engineers and developers to translate technical requirements into user-friendly product features, and communicate effectively with technical and non-technical stakeholders.

To be successful in this role, I would need to have a strong technical background, excellent project management skills, and a keen eye for detail. I would also need to be able to prioritize tasks effectively, and work well under pressure to ensure that our products are always of the highest quality.

Summary

An enthusiastic and highly motivated individual with nearly 11 years of experience in the design and development of enterprise grade products. Pioneered the development of many next-generation applications for various clients ranging from leading FMCG, Retail, Banking, and E-Commerce.

A rapid learner who can able to learn and comfortable to adopt new technologies quickly. Extensively worked on Android, IOS, Java and C# .Net platforms.

I have extensive experience in developing enterprise production level Mobile Applications(Android, iOS, Xamarin, Flutter), Web development, Java application development and maintenance and UI/UX development. I was improving myself continuously in solving complex algorithms and data structures. I guide the development team in delivering high-quality software and analytic solution in a cost-effective and efficient manner.

Expertise in handling Strong Customer Authentication(SCA), Security, Scaling, Code management and Code obfuscation.

Done R&D in Artificial Intelligence and Blockchain.

Exposure to Cloud computing services and Build tools.

Experience in designing intuitive UI and UX using design tools like Adobe XD and Figma.

I am improving myself continuously in solving complex algorithms and data structures. I guide the development team in delivering high-quality software and solution in a cost effective and efficient manner.

Proficient in programming languages like Java, Kotlin, Swift, C, C++, PHP and data interchange formats like XML and JSON.

Good sense in customising complex UI using various layouts and also specialised in enabling features like maps, Web services and media libraries.

Successfully completed R&D on accessing mobile applications in the Smartphone using voice commands for ford SYNC® AppLink™.

Extensively worked on peripherals like Printers, Camera, GPS, Bluetooth, NFC and Beacons etc.

Solid understanding and practice in TOGAF architecture (not certified).

Ability to understand business requirements and translate them into technical requirements

Having good analytical, debugging and problem solving skills.

Experience

Technical Product Manager

Tiger Holidays

Apr 2022 - Present (1 year)

As a Technical Product Manager at Tiger Holidays, my main responsibilities would be to oversee the development and management of the company's technology products. This would include working closely with cross-functional teams to gather requirements, develop product roadmaps, and define product features. I would also be responsible for ensuring that the products are delivered on time, within budget, and meet quality standards.

In addition to these core responsibilities, I would also conduct market research, analyze user feedback, and monitor industry trends to ensure that our products remain competitive and relevant. I would collaborate with engineers and developers to translate technical requirements into user-friendly product features, and communicate effectively with technical and non-technical stakeholders.

To be successful in this role, I would need to have a strong technical background, excellent project management skills, and a keen eye for detail. I would also need to be able to prioritize tasks effectively, and work well under pressure to ensure that our products are always of the highest quality.

Observation report of the students

Mr. Rohith A T(1RR21CS129) and Mr. Bharadwaj M(1RR21CS023)

Learnt the Following Concepts:

Introduction to HTML & Node Js

- HTML Basics, Elements, Attributes, Styles
- Forms, Form Elements, Input Element Types
- Input Attributes, File Paths, the Script tag
- HTML & XHTML
- Introduction to Node JS
- Introduction to Node JS
- Advantages of Node JS
- What is Node JS, Node.js Process Model
- Traditional Web Server Model

Introduction to CSS & Node JS Modules

- CSS Introduction, Syntax, Selectors, Styling
- Pseudo class, Pseudo Elements
- CSS Tables, CSS Box Models
- CSS Opacity, CSS Navigation Bar, Dropdowns
- Functions, Buffer, Module
- Modules Types
- Core Modules, Local Modules
- Modules Exports

Introduction to JavaScript & Node Package Manager

- JavaScript Statements, Keywords, Functions
- JavaScript Programs, Operators, Functions
- Function Parameters, Function Return Types
- Data Types, Primitive Types
- What is NPM, Installing Packages Locally
- Installing package globally
- Adding dependency in package JSON
- Updating packages

Working with Objects & Creating Web Server

- Object-Oriented Programming, Object Creation
- Adding Methods of Objects
- JavaScript Loops & Iteration
- Adding Properties of Objects
- JavaScript Conditional Statements
- Enumerating Properties, Callbacks, JSON
- Creating Web Server
- Sending Requests
- Handling HTTP requests

Angular Expressions & Database Connectivity

- All about Angular Expressions
- How to use expressions, Angular vs JavaScript
- Connecting String, Configuring
- Updating Records
- Working with Select Command
- Deleting Records

Filters & Serving Static Resources

- Built-In Filters, Using Angularjs Filters
- Creating Custom Filters
- Serving Static Files
- Working with Middle Ware

Directives & Express JS

- Introduction to Directives, Directive Lifecycle
- Binding controls to data, Matching directives
- Using AngularJS built-in directives
- Creating a custom directive
- Configuring Routes
- Working with Express

Controllers & Events

- Role of a Controller, Controllers & Modules
- Attaching Properties and functions to scope
- Nested Controllers, Using Filters in Controllers
- Controllers in External Files
- Event Emitter class
- Inheriting Events
- Returning event emitter

AngularJS Modules & Debugging Node JS Application

AngularJS Animation

- ngAnimate Module, CSS Transforms
- CSS Transitions, Applying Animations

Conclusion:

Students Development program can help the students understand to learn various Concepts of Angular JS and NodeJS.

It can also provide students with practical knowledge to implement programming constructs.

This can help students to make use of HTML and CSS.

The best thing you can do for yourself is to take it easy-Graduation is just another stepping stone in life. By graduating you have accomplished a lot more than many others managed to achieve by the time they were your age.

Take your time and explore your options- there is an endless plenty of possibilities in front of you when it comes to career development.

Observation report of the students

Mr. Karthik R(1RR22CS065) and Mr. Keerthiraj (1RR22CS066)

- Got insight about a real meaning of compassion.
- How to live in a family and value of relationships
- What is real attachment?
- Science with spirituality.

Conclusion:

Seminar can help the students to understand the real meaning of happiness, life and also help to understand the importance of religious harmony, compassion, kindness.

The best thing you can do for yourself is to take it easy- Graduation is just another stepping stone in life. By graduating you have accomplished a lot more than many others managed to achieve by the time they were your age.

Take your time and explore your options- there is an endless plenty of possibilities in front of you when it comes to career development.

A Report on International Yoga Day 2023

Date: 21-06-2023

Venue: RRCE, Lobby

Time: 11:30 AM to 1.00PM

Chief Guest: Mr. M. Rajeshachari, International Medalist in Yogasana Sports, Founder of Acharya Yoga

The International Yoga Day was celebrated on 21 June 2023 with great eagerness and enthusiasm at RajaRajeswari College of Engineering under the NSS Unit and coordinated by Prof. Ramesha S, NSS Coordinator and Dr T. Subburaj and was attended by around 50 staff and students.

Prof. Ramesha S in the presence of Dr. R. Balakrishna, Principal and Dr J. Amutharaj vice Principal welcomed everyone and introduced the Chief Guest, Mr. Rajeshachari.

A special activity was conducted for the Students and faculties by our Chief Guest M. Rajeshachari. The Students and faculties had their Yoga session for about 40 mins. The benefits of the postures were narrated by the Chief Guest side by side as Students and Faculties performed with the instructions. All are participated eagerly by following the instructions.

Below are the different asanas that were performed:

- Bhujangasana Or Cobra Stretch Pose
- Padmasana or Lotus Position Pose
- Parshvottanasana or Intense Side Stretch Pose
