### Career Guidance Program Report

Title of the event: Generative AI

Resource Person: Naveen Kumar, Co- Founder, Scontinent Technologies

Date of the event: 12/03/24

Event Duration: 10:00am to 1:00pm

Venue : Room 219, 2<sup>nd</sup> floor

Target Participants: AI&ML , 3<sup>rd</sup> and 4<sup>th</sup> year Engineering Students.

#### Outcome of the program:

Transform your business operations with the power of generative AI development services to adept at developing Generative AI Solutions for companies of all sizes. We leverage modern, cutting-edge technologies such as ChatGPT, DALL-E, Google Bard, and Midjourney to help you achieve your business goals.

Outcome of the program is to provide information on Generative AI and exposure to various AI tools. It helps students to identify and use AI driven tools the time taken to perform a task, expose them to a diverse range of opportunities to build their goals.

Students gained information:

1. Gained knowledge in the field of AI
2. Gained knowledge and opportunities by upskilling in the field of Generative AI.

### Outcome of the program:

Outcome of the program is to provide information on 'Trending Technologies and Job Readiness'. Focusing on latest technologies like MERN stack developer, Techstacks, Mongo DB, Mern stack developers, R programming for data analyst and Web development. Job Readiness Checklist includes-

- MongoDB: CRUD operations, indexing, aggregation, replication, schema design.
- Express.js: Building RESTful APIs, middleware integration, error handling, authentication.
- React: Component-based architecture, state management (hooks/Redux), routing.
- Node.js: Asynchronous programming, event-driven architecture, backend integration.
- Python for Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn.
- SQL and NoSQL Databases: Proficiency in SQL and familiarity with NoSQL databases like MongoDB

## REPORT ON CAREER DEVELOPMENT PROGRAM

Title of the Event : CAREER DEVELOPMENT PROGRAM – skill development

Date of the event: 19<sup>th</sup> JUN 2024

Event Duration : 11:45 am – 12:45 pm

Venue : Room No 219, 2<sup>nd</sup> floor , RRCE

Target Participants: AI&ML 3<sup>rd</sup> year

### Overview of the Event:

All students gathered in their class, eager to participate in the Career Development Program focused on the topic "Number System." The session began with an engaging introduction by the instructor, who emphasized the importance of mastering number systems for aptitude tests. Students were provided with comprehensive materials and examples to ensure a clear understanding. Throughout the session, interactive activities and problem-solving exercises were conducted, allowing students to apply the concepts in real-time scenarios.

The atmosphere in the class was filled with enthusiasm as students actively participated and asked questions to clarify their doubts. The instructor's approachable demeanor made the learning process enjoyable and effective. By the end of the program, students felt more confident in their ability to tackle number system problems in aptitude tests. The session concluded with a quick review and tips for further practice, leaving students motivated and better prepared for their future career endeavours.

### Outcome of the program:

As a result of the Career Development Program on the "Number System," students gained a solid understanding of essential concepts and techniques crucial for aptitude tests. They felt more confident and equipped to tackle numerical problems, significantly improving their problem-solving skills and readiness for future career assessments.

- Type of Event : Career Opportunities in Embedded System with IOT
- Resource Persons :Mr.VijayaMahantesh, Technical Director,CadmaxxEdtech, Pvt. Ltd.
- Date of the Programme : 08/12/2023
- Participants :5th SEM ECE & EEE (5<sup>th</sup> and 7 thsem)STUDENTS
- Outcome of the Programme:

Students gained information about the following:

Career opportunities in Embedded systems and IoT some of the popular jobs that you can go for

after embedded systems and IoT are as follows whose main function is to update code and provide

frequent reports on their actions.

- Engineer in embedded Linux
- Embedded IoT application developer
- Cyber security embedded developer
- Cyber security embedded developer
- Engineer of microcontroller firmware.

About the programme

## Workshop: Algorithmic Thinking and Problem Solving

© S.R. Subramanya

Exskillence

San Diego, USA

### Introduction

The essence of all computing is the development of algorithms for the solution numerous problems in various domains such as Engineering, Sciences, Healthcare, Transportation, Urban Planning, Banking and Finance, Retail/Commerce, etc., and their subsequent implementation. Optimal solutions are sought after wherever possible/practical/feasible. In the increasingly technology driven world, it is essential for students in Science, Engineering, and Management to have the capabilities of critical thinking, problem analysis, problem solving, and developing algorithmic solutions to numerous real-world and societal problems. This workshop has been designed to present a systematic way of analyzing the problems and applying appropriate technique chosen among several classic algorithm design techniques for developing solutions to numerous problems that arise in many different domains.

### Workshop objectives

The overall objectives of the workshop are to teach methods and techniques of: (a) analyzing the problem; (b) modeling the problem; (c) evaluating and choosing the appropriate algorithm design technique suited to the problem solution; (d) developing and analyzing the solution; (e) presenting the solution.

### Workshop activities

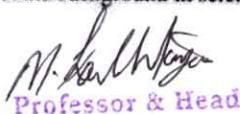

This workshop is *hands-on* and the participants will be actively engaged in applying algorithmic techniques to the solutions of several interesting and practical problems. The problems will be drawn from many different domains, such as Engineering, Computing, Transportation, Manufacturing, Management, Social sciences, etc. Each of the problems is analyzed and the most appropriate algorithm design technique is chosen for its solution. The participants will work in groups and compete to develop the most efficient solution.

### Workshop outcomes

The workshop outcomes are: (a) good analytical, problem-solving, and critical thinking skills; (b) understanding of algorithm design techniques; (c) ability to apply algorithms for systematic solution development; (d) ability to evaluate the solutions for correctness and efficiency; (e) experience in working as part of a group; (f) fun.

### Audience and prerequisites

Students of Engineering, Science, Management, Computer Science, and Information Technology. Also, anyone with some background in science and mathematics, a desire to learn, and an open mind can benefit from this workshop.

### 8. PROGRAM OUTCOME :

- Soft skills are the emotional and tactical techniques that make job seekers more effective when interviewing for a new position.
- The most important skill for an interview is verbal communication because it helps you convey valuable information about your education, abilities and experience to a potential employer.
- Leadership is a set of qualities necessary to lead people or an organization. It is the art of motivating, guiding, and inspiring people to work together towards a common goal. Leadership qualities define what makes a leader effective. There are four leadership qualities: vision, influence, motivation, and competence.
- Focus on demonstrating your strengths.
- Achievable. Make sure your goals are realistic and within your capabilities.
- Meeting kickoff. Motivate your employees to enjoy meetings and share ideas by starting professional gatherings off with a quick game or icebreaker

5. NUMBER OF PARTICIPANTS: 54

### 5. PROGRAM OUTCOME:

- Interviewing skills are the emotional and tactical techniques that make job seekers more effective when interviewing for a new position.
- The most important skill for an interview is verbal communication because it helps you convey valuable information about your education, abilities and experience to a potential employer.
- Leadership is a set of qualities necessary to lead people or an organization. It is the art of motivating, guiding, and inspiring people to work together towards a common goal. Leadership qualities define what makes a leader effective. There are four leadership qualities: vision, influence, motivation, and competence.
- Focus on demonstrating your strengths.
- Achievable. Make sure your goals are realistic and within your capabilities.
- Meeting kickoff. Motivate your employees to enjoy meetings and share ideas by starting professional gatherings off with a quick game or icebreaker
- Stress interviews involve an assortment of questions meant to put a candidate in an uncomfortable or stressful situation, which can help employers understand how a candidate responds to these types of scenarios.
- Cracking an interview is a skill that can be developed and improved over time. It involves a combination of preparation, self-confidence, effective communication, and the ability to showcase your qualifications and fit for the position.
- Self introduction
