recommended framing the syllabus in accordance with the National Credit Framework and AICTE model curriculum.

All External members emphasized that each subject must include Lecture-Tutorial-Practical-Self Learning (L-T-P-S) components and suggested incorporating activity-based and experiential learning in to the entire first-year curriculum

3: Discussion on scheme proposed for UG Second year (third and fourth semester) for the academic year 2025-26.

Dr. N. Guruprasad, suggested including of Unix Shell Programming instead of Metric spaces (3 credits) for 4th sem.

Dr. Yogish H.K, suggested including subjects such as Artificial Intelligence instead of Microcontroller and embedded systems.

Dr Sreenivasa proposed an idea of making Lab programs language-independent so that students can learn collaborating different languages under come platform for learning effective projection implementation.

Dr. Yogish H K suggested for maintain uniformity in laboratory programs for all semesters.

Dr. Yogish H.K highlighted on concentrating more on Verilog module as it would help in understanding VLSI and help in implementation of projects.

Dr. Hanumanthappa highlighted on framing Data structures concepts appropriately hence slightly modification needed for existing syllabus to meet the industry standards.

All BOS members suggested reducing few basic concepts in Digital Design as learning many concepts would be difficult for students.

Key Discussions and Decisions :

-The board reviewed existing AI & ML programs and identified gaps and opportunities for improvement.

-It was agreed that a task force would be established to develop a revised curriculum that includes contemporary topics like reinforcement learning, AI ethics, and generative models.

-Suggestions for new courses and specializations were solicited from board members.
